2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

Oro Grande Elementary School District educates around 105 students per year in grade transitional kindergarten to the sixth grade.

Oro Grande is a small community located in the High Desert in Southern California. The population of Oro Grande is 1,064.

The main industry in Oro Grande comes from a large cement factory located near the elementary school. Most residence travel into other areas of the high desert for employment.

The Oro Grande Elementary unduplicated percentage is 94%.

The English Language Learner population is 32% of students (all EL students' primary language is Spanish)

The Oro Grande Elementary School district also operates two large charter schools. Riverside Preparatory School and Mojave River Academy provide additional opportunities for Oro Grande students. These two schools provide program that continue through the 12th grade.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

The Oro Grande Elementary School will prepare the next generation. Students who are not meeting grade level standards will be supported through intervention and all students will have access to standards aligned rigorous curriculum and instruction. (Goal 1 Action 1.1)

Our students will be introduced to a wide variety of classes, mentors and technology that ensure that every student's educational need is met for college and/or career. All students will be exposed to the visual and performing arts to provide a culturally balanced education. (Goal 4 Action 4.1)

Our families will be a part of the overall educational experience and will have opportunities to engage and seek support from the school.(Goal 2 Action 2.1)

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

English language arts and math CAASPP scores increased on the LCFF Dashboard (math 3.7 points and ELA 6.6 points. Both content areas moved from orange and red to yellow).

Increased intervention classes for students not reading at grade level have impact CAASPP scores and overall ELA proficiency. Ongoing teacher professional development in effective instructional practices and standard aligned instruction has been a catalyst for student achievement.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

Suspension rates are an area of concern for Oro Grande Elementary School. The California Dashboard indicates that all students are in "red" 9.6% and socioeconomically disadvantaged students are very high at 10.1%. Chronic Absenteeism continues to be an area of concern with a 19.1% rate for all students. The school working with a team of administrators, teachers and classified staff to create, train and implement a progressive discipline plan (Goal 2: Action 1). There is also an addition of an elementary counselor and school resource officer to work on social-emotional factors that lead to discipline and attendance issues (Goal 2: Action 1).

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

Hispanic students are performing two levels (red 97.1 points below 3- on the CA Dashboard) below all students (yellow 84.2 points below 3 - CA Dashboard) in Math performance. The district plans to increase math professional development for teachers - specially for teachers in the primary grades. The district will increase professional development opportunities for classroom teachers, specifically math in the primary grades.

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

Increased or Improved Services

The school is working with a team of administrators, teachers and classified staff to create, train and implement a progressive discipline plan. There is also an addition of an elementary counselor and school resource officer to work on social-emotional factors that lead to discipline and attendance issues. There will be an addition of Instructional Support Teachers will help coach teachers and assist administrators in exemplary instructional practices.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All students were lexile tested quarterly throughout the school year. Students that did not meet grade level lexile targets were placed in pull out intervention reading classes.

Oro Grande Elementary School is utilizing California State Standard aligned curriculum ELD grades TK to 6th.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Students made an 8% growth in reading proficiency. There continues to be a majority of students in the intervention program that are reading multiple years below grade levels and will continue to need more intervention opportunities.

The students are not meeting the CAASPP targets- intervention and professional development for teachers in reading instruction will continue to be a priority in all grade levels.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There was a slight difference in budgeted resources and estimated actual expenditures due to changes in salaries and changes from English Language Learner instructional materials. (Action 1.1)

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

There were no significant changes made to this LCAP Goal.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Students that are in need of social/emotion support are referred to student services and supported by the school psychologist. Family/community workshops were offered in anti-bullying and positive parenting strategies.

Families and community members participated in the Latino Family Project and English classes supported by the ELD coordinator and EL teacher.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Counseling provided by school psychologist and parent classes to support families in social emotional areas had high participation rates. After reviewing data and as a result of higher suspension rates and chronic absenteeism rates, action items have been changed and added for the 2018-2019 LCAP year. An increase in services for students are needed to achieve Goal 2 in future years.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

There were slight differences based on salaries in Action Items 1 and 2. Action Item 3 was not implemented in 2017-2018, and therefore will be changed for the 2018-2019 LCAP year.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

The family academic events did not place during the 2017-2018 school year. Changes to this goal are evident in the 2018-2019 LCAP Goal 2. With stakeholder input, the decision was made to increase serves such as providing social emotional curriculum to students, hire a new elementary

counselor and school resource officer (Goal 2 Action 1) .

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All teachers participated in 6 full day California State Standards training. Teachers (in grade level) teams worked with experts in ELA and math content. The teachers worked on perfecting their scope and sequences, benchmarks and collaborated on instructional strategies. All teachers looked at data to inform instruction and created year long projections for students not meeting grade level standards.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

The goal was met effectively with all teachers and administrators participating in training. The level of implementation of the instructional strategies to the students is a result of the 6 days of training in ELA and math.
An increase in ELA CAASPP scores along with an increase (8%) of students reading at grade level is evident in the effectiveness of professional development.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The difference in budgeted expenditures to estimated actual expenditures was the result of additional administrative coaching.(Action 3.1)

Stakeholder Engagement

LCAP Year: 2018-19

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

In embarking on the creation of this plan, Oro Grande School District aimed to seek substantive and thoughtful input for all stages of plan development: During all of the stakeholders meetings, federal, state and local data was shared. This included opportunities for all stakeholders to look at the progression of CAASPP scores, data from English Language Learner assessments and local benchmarks. Stakeholders also look at parent and student surveys and data regarding school climate such as, California Healthy Kids Survey and suspension and expulsion rates.

All stakeholders were given opportunities to share ideas, ask questions and give feedback regarding all academic and social programs at Oro Grande Elementary School. Parents and community members are invited to participate and give feedback at the Community Superintendent Committee, School Site Council and ELAC/DELAC. Invitations are extended through the use of school wide phone calls, social media, and the Oro Grande website. All information is provided in parents and student's primary language.

Community Superintendent Committee (parents and families of Oro Grande Elementary School District)

English Learner Advisory Committee (parents and families of students whose primary language is not English) May 29th 2017

School Site Council (specific to LCAP) May 29th 2018

District Superintendent Committee (certificated staff (teachers and counselors) Sept. 22, 2017, Dec. 15, 2017, March 9, 2018 and June 1, 2018)

Management Retreats Committee (Certificated and Classified Management District and Site) - July 25th-26th 2018 and February 6th 2018

The LCAP held public hearing on June 6th, 2018 and was adopted by Oro Grande Board of Trustees on June 13th, 2018.

(Oro Grande School District does not have an active Union)

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

The district has provided many opportunities for all stakeholders to provide input and ask questions regarding the progress of LCAP and associated goals. After looking at district-wide data, all stakeholders agreed that more intervention is needed and that teachers and administrators also agreed that California State Standards professional development would be more relevant if presented in the same fashion Kindergarten through 12 grade (including the district charter schools). An increase of staff to provide interventions for student and staff support along with training for administration has been increased for the 2018-2019 school year.

After reviewing the data and analyzing the progress of the goals, all stakeholders agreed that resources should be allocated to move towards achieving and revising LCAP goals. Additional changes to LCAP Goal 2 will provide additional resources for the social and emotional health of all students at Oro Grande Elementary.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: 2017-18

Estimated Supplemental and Concentration Grant Funds

\$309,828

Percentage to Increase or Improve Services

31.04 %

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds.

The district is expected to receive approximately \$281,688 in Supplement and Concentration Grant Funding in the 2017-2018 school year. In 2017-2018, the district plans to continue services provided to low income and the EL population. Oro Grande School District educates 92% population rate of low-income students. Due to the high population of this unduplicated population, programs offered are appropriate for the total LEA's student population. Oro Grande School District provides an increased 8 hour day program to provide time for intervention programs for unduplicated students. These programs include intervention programs (instructional materials specifically targeted for the EL population (reading intervention materials), staffing and professional development for increased services for EL students and low income populations (FTE for EL intervention program, and increased technology). A review of district needs and metrics, along with input from key stakeholders, helped the district determine the services – and the most effective use of Supplemental Grant funds)

LCAP Year: 2018-19

Estimated Supplemental and Concentration Grant Funds

Percentage to Increase or Improve Services

38.01%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds.

The district is expected to receive approximately \$299,291 in Supplement and Concentration Grant Funding in the 2018-2019 school year. In 2018-2019, the district plans to continue services provided to low income and the EL population. Oro Grande School District educates 94% population rate of low-income students. Due to the high population of this unduplicated population, programs offered are appropriate for the total LEA's student population. Oro Grande School District provides an increased 8-hour day program to provide time for intervention programs for unduplicated students. These programs include intervention programs (instructional materials specifically targeted for the EL population (reading intervention materials), staffing and professional development for increased services for EL students and low-income populations. An additional counselor and school resource officer have been added to address areas of needs identified in the LCFF Dashboard. These new positions will assist with programs developed to combat high suspension and chronic absenteeism rates. A review of district needs and metrics, along with input from key stakeholders, helped the district determine the services – and the most effective use of Supplemental Grant funds.
